Reference: Results for the second quarter of the previous fiscal year (the second quarter of the fiscal year ending March 31, 2012)	181,355	23,366	17,447	9,862	90.10

<Reason for Revisions>

1. The Booking of Impairment Losses

The Company booked impairment losses pursuant to the Accounting Standard for Impairment of Fixed Assets. Impaired assets consisted of goodwill generated when the Company acquired LAPIS Semiconductor Co., Ltd. (Formerly OKI Semiconductor Co., Ltd.) in 2008.

Consequently, the Company plans to post 8,622 million yen of impairment losses as extraordinary losses in the consolidated financial statements for the second quarter of the fiscal year ending March 31.

2. Reason for Revisions

The business environment during the first six months of the year ending March 31, 2012 remained in unclear conditions due to severe world economy state and serious appreciation of the yen. Regarding profits, in addition to foreign currency exchange losses according to appreciation of the yen, ROHM will post impairment loss of goodwill. Therefore, ROHM is revising its business results forecast for the first six months of the year ending March 31, 2012 as above. Forecast Data for entire year has not been finalized. In consideration of future orders and effects of flooding in Thailand, ROHM will make that information available on the day of announcement of financial statements that is scheduled for November 9, 2011.

<Notabilia on Forecast Data>

Since the statement regarding the business results forecast accounted for in this press release is based on current information acquired by ROHM as well as specific legitimate prerequisites, actual business results may be considerably different due to various factors.
