(Reference) Results for the first six months of the previous fiscal year (the first six months of the fiscal year ended March 31, 2016)	189,636	23,424	32,705	26,180	245.79

<Reasons for revisions>

Although there was no significant change in the business environment during the first six months of the fiscal year ending March 31, 2017 from the forecast on May 10, 2016, sales have fallen below the forecast slightly due to an appreciation of the yen more than expected. Regarding profits, operating income has exceeded the forecast significantly due to the effect of decrease in fixed cost by cost reduction and reducing capital expenditure. On the other hand, ordinary income is expected to fall below the original forecast due to foreign exchange losses according to an appreciation of the yen more than expected. Profit attributable to owners of parent is expected to exceed the forecast due to an impact from tax effect related to income taxes. Under these circumstances, the company has revised its forecast data of consolidated business results for the first six months of the fiscal year ending March 31, 2017 as above. Forecast data for the entire year has not been finalized. The company will consider forecast of orders and make it available on the day of announcement of the second quarter results that is scheduled on November 1, 2016.

<Notabilia on forecast data>

Since the statement regarding the business results forecast accounted for in this press release is based on current information acquired by ROHM as well as specific legitimate prerequisites, actual business results may be considerably different due to various factors.
