

# Power Management Solution for Smart Houses

"NetFront® Agent", the world's smallest class software for gateways cooperating with Wi-SUN

## Features

- Apply built-in browser's web technology for IoT gateways
- Leverage WoT(Web-of-Things)-suited device development
- Provide edge computing environment
  
- Most suitable for B-route data collection by Wi-SUN
- LAPIS Semiconductor IC utilized for industry-leading receiver sensitivity

## Applications

- Smart Houses
- HEMS, BEMS
- Routers
